Project Design Phase-I
Solution Architecture

Date	22 october 2022
Team ID	PNT2022TMID27073
Project Name	Project – Analytics for Hospital Health Care Data.
Maximum Marks	4 Marks

TEAM LEAD: MADHUMITHA.P

MEMBERS : NITHYA.R

KRISHNAKANTH.B

KISHORE.A

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
